

# RURAL URBAN SYNTHESIS SOCIETY

## Directions

The nearest train station is Ladywell, on the Hayes line out of Cannon Street or Charing Cross, which go through Waterloo East and/or London Bridge. The venue is a few minutes walk from Ladywell station, exit from either platform, and turn right when you arrive up on the Ladywell Road. Cross the road at the bollards, outside St. Mary's Hall, and Church Grove is the next left. We are right at the end of the short cul-de-sac, there is a sign on the black metal pedestrian gate which is slightly to the left of a Camper van usually parked in our neighbours driveway. The hub building is not currently visible from the Ladywell Road, so you should walk right to the end of Church Grove.

If you arrive via Lewisham or Catford/Catford Bridge, several buses run between Lewisham and Catford (75, 185, 136 and others - see map) - get off at the Lewisham Fire Station stop, and walk up the Ladywell Road (there is a Georgian building called Ladywell House on the corner). Church Grove is the second street on the right, the turn is opposite the derelict redbrick Victorian Playtower / bus stop. Again, we are right at the end of the short cul-de-sac, there is a sign on the black metal pedestrian gate which is slightly to the left of a Camper van in our neighbours driveway. The hub building is not currently visible from the Ladywell Road, so you should walk right to the end of Church Grove.

There is **absolutely no parking** on our street, but if you come by bike, we have secure storage for up to 10 bikes to the rear of our building.

**PLEASE NOTE: The Hub is only open for advertised events or by appointment - please do not travel to visit the hub at other times, as it will most likely not be accessible."**
